Albert at work

Work was hectic for Albert in 2016 as well. In January, NTNU merged with 3 university colleges, and this resulted in a busy year filled to the brim with re-organisational tasks. On the bright side: Never a dull moment 😊

ÅLESUND

All that hard work did not go unnoticed. In October, Albert and his team were awarded the Cicignon prize for their excellent work in HR and organisation development.

Cultural and culinary treats
Our year overview wouldn't be complete without some pictures from two of our favourite pastimes: excellent dinners and good music ☺
