

Christmasletter 2019

Albert & Beatrix

Playing outside

Even after all our years living in Norway, we still can't get enough of the outdoors. Skiing in the winter, as well as hiking, biking or kayaking the rest of the year. We have the best opportunities to enjoy playing outside in the nature, often right next to our house ☺

Our visitors

Many of our friends and family enjoy Norway as well, so we always get several visitors for shorter or longer stays. We started the year with Marrie & Ger to celebrate New Year's Eve with us and Menno & Ingrid. They came back for a second visit right after the summer.

Enjoying the outdoors

Our friend and Bea's colleague Lis from the UK visited us twice as well. The second time, Sabato from Italy came for a visit as well. Always good times!

Celebrating the start of 2019

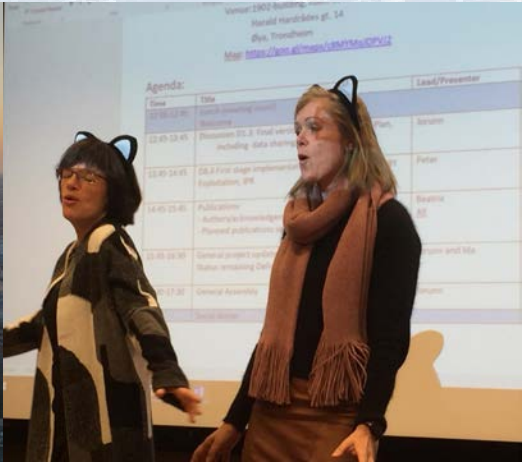

We also had a visit from Tessa, also from the Netherlands, who wanted to see and know more about movement science.

Another regular visitor is our friend Annie from the Netherlands. We filled the days with hiking, followed by good meals either at home or in downtown Trondheim.

Beatrix at work

Bea had a very full year at work, finishing one EU-project and starting a new one. She also travelled a lot and gave many presentations.

Our animal kingdom

We have lots of birds and roe deer around our house, and even spotted a reindeer on the road.

Traveling

We travelled quite a lot for pleasure as well, visiting Japan, friends in Malmö, family in the Netherlands, and our own neighbourhood.

Albert at work

2019 was the first full year for Albert as HR and Innovation director. He greatly enjoyed it, and learned a lot about many new things.

De aller fleste av de 23 evakuerte etter brannen i Moheim-bygget natt til fredag har flyttet hjem til slekt og venner i løpet av fredagen.

– Pr. nå så er det to av de evakuerte som fortsatt er på Scandic Hell, forteller beredskapsrådgiver Per Martin Øfsti i Stjørdal kommune fredag kveld.

Øfsti har sammen med varaordfører Ole Hermod Sandvik, fungerende rådmann Albert Vehagen og virksomhetsleder Åse Slind håndtert situasjonen fra kommunens side fredag. Beredskapen til kommunen ble trappet ned
